Word Builder 1

Printable picture and letter cards

Look. Choose. Build. Say!

Print, cut and make a ring flip

1. Print on A4 paper at actual size (100%).
   Card or thicker paper works well.
2. Ask an adult to help you cut along the black dashed lines.
3. Make four ring flips using the instructions on the next page.
4. Put a picture card down. Choose a green beginning card, an orange vowel card and a green ending card.
5. Build the word. Read it aloud, then try another picture!

Picture	Beginning	Vowel	Ending
cat	c	a	t

Green = consonants and blends.
Orange = vowels and vowel teams.

Use a **blank** card when a word has no beginning or ending: bee ends with a blank; oil begins with a blank.

There are two **oo** cards. The small hints **moon** and **book** help you choose the right one.

Use one picture at a time. Keep the three letter stacks separate. The teacher's answer key is at the back.

How to make a ring flip

A grown-up's guide

What you need

Scissors, a hole punch, and **8 small binder rings**
(2 rings for each of the 4 stacks).

An adult should help with cutting, punching holes and the rings.
Keep small parts away from young children.

1. Print the pages (colour if you can). Use A4 at 100% / actual size.
2. Cut along the dashed lines.
3. Punch holes through the two circles at the top of every card.
   Keep the holes in the same place so the cards line up.
4. Make four piles: Picture cards, Beginning cards (green),
   Vowel cards (orange), Ending cards (green).
5. Put two binder rings through the holes of each pile.
   That pile is now a ring flip.
6. Stand the four ring flips in a row: Picture, Beginning, Vowel, Ending.
   Flip one stack at a time to build a word.

To stand the stacks up, lean them against a firm folded-card support.
Blank beginning/ending cards are for words such as bee and oil.
There are two oo cards: moon and book.
